Man shot by Forest Service officer was bloodied, naked

A new report released this week states that the man who was shot and killed by a U.S. Forest Service agent in Oak Creek Canyon on Jan. 19 was walking down Highway 89A bloody and naked.

A Coconino County Sheriff’s Office investigation report identifies the officer as a U.S. Forest Service Agent Krista Kuhns. The man who died was 53-year-old Micah Shane Wilson, of Sedona.

Walter heard Kuhns give a description of a bloodied man who was walking naked southbound on Highway 89A.

"I could hear her tone she was on the loud speaker, consistent with an intense situation," he said in the report.

He then heard over the radio that shots were fired. "During my response, dispatch was attempting to contact [Forest Service Agent] Kuhns without any result. It was also reported to DPS that a suspect was down in the roadway in which further details were not provided," Walter said in the report.

Prior to his arrival, Kuhns was no longer involved with the suspect, and other agencies had arrived on scene.

Walter arrived and located DPS Troopers D. Cameron and K. Krueree. He was then informed that the man was being transported, and that Cameron and K. Krueree had a description of a bloodied, naked man walking down Highway 89A.

Walter was also relayed to him that the Sedona Police Department was tendering to her.

WHAT if voters don’t extend the jail sales tax?

It would mean a dumped loss of millions of dollars if voters do not approve extending the 20-year, quarter-cent sales tax that helps pay to operate the existing Yavapai County jail in the Verde Valley.

About 15 percent of the jail’s operations comes in by sales tax, or $.8 million, would disappear.
